Work Experience

Stephen Lewis Foundation

Oct 2024 – Dec 2025

Data & Power BI Developer

Toronto, ON

- Designed and deployed a **Power BI dashboard** automating data intake from Microsoft Forms, reducing manual reporting times
- Built custom metrics with **DAX** and **Power Query**, improving reporting accuracy by **25%**
- Managed **SQL** and **Excel**-based data sources, ensuring data consistency and accessibility across 3+ teams
- Collaborated with cross-functional teams to define data requirements, delivering insights that supported funding strategies and improved stakeholder reporting efficiency

Aquazen Services

May 2025 – Sep 2025

Full-Stack Developer

Toronto, ON

- Revamped a full-stack web app by modernizing **Next.js** front-end components and integrating **Redux**, boosting scalability and enabling faster feature development
- Optimized **REST APIs** in **Node.js** + **PostgreSQL**, cutting response latency by **20%** and improving system efficiency across high-traffic endpoints
- Designed and tested robust **database schemas** and pagination features, increasing reliability for 200+ daily transactions and minimizing downtime
- Applied **Agile practices** and **Git workflows**, reducing release cycles while improving cross-team collaboration

Riipen

Jan 2025 – Apr 2025

Web Developer - DJ Business Site

Toronto, ON

- Delivered a responsive DJ business website using the **Scrum framework**, ensuring on-time delivery
- Applied **SEO + Google Analytics**, increasing traffic by **25%** and improving site reliability with testing
- Integrated the **Google Business Profile API** to display real-time reviews, boosting user trust and engagement

Equitable Bank

May 2022 – Dec 2022

Cloud & DevOps Engineer Intern

Toronto, ON

- Automated CI/CD pipelines with **Jenkins**, cutting manual deployments by **30%** and increasing delivery speed and consistency
- Deployed monitoring dashboards with **Kibana**, improving system visibility and reducing incident response time by **25%**
- Created 20+ **Confluence** team pages, streamlining onboarding and reducing ramp-up time

Projects

🔗 Forge Fit | React, JavaScript, Firebase

- Built **ForgeFit**, a full-stack fitness tracking platform with React, Node.js, and Firebase for **real-time workout logging** and cross-device synchronization
- Developed an **AI-powered chatbot** with OpenAI API, delivering personalized workout plans, guidance, and nutrition tips
- Implemented **progress tracking dashboards** with Chart.js, enabling performance analytics and historical data visualization
- Added secure **authentication and profiles** with Firebase Auth, ensuring data security and a personalized user experience

🔗 Car Safety Dataset Evaluation | Python, scikit-learn, Pandas, NumPy

- Processed and analyzed the UCI Car Evaluation dataset for **supervised classification**
- Developed Decision Tree, Random Forest, KNN, Naive Bayes, and SVM models, achieving **98% accuracy**

Skills

Languages: Python · Java · JavaScript · TypeScript · SQL · C/C++ · Bash

Frameworks/Libraries: React · Node.js · Next.js · FastAPI · GraphQL · Chart.js

Cloud/DevOps: AWS · Azure · GCP · Docker · Kubernetes · Terraform · Jenkins · GitHub Actions · CI/CD

Databases/Tools: PostgreSQL · MySQL · Firebase · Git · Jira · Postman · Confluence · Kibana · Power BI

Education

Toronto Metropolitan University

Sep 2021 – Apr 2025

Bachelor of Science (BSc) - Honours Specialization in Computer Science

Toronto, ON

- **Coursework:** Algorithms, Data Structures, Databases, Object Oriented Programming, Data Mining, Artificial Intelligence, Software Engineering, Distributed Systems, Operating Systems
