Work Experience

Manufacturing & Technology Centre — Software Developer

Dec 2025 – Present

- Developed and maintained internal enterprise applications using .NET (VB) across WPF and WinForms for core workflows
- Designed and optimized SQL queries and validation logic to improve data reliability and reduce manual effort
- Built and updated ASP.NET web applications that query and update SQL Server data for internal business workflows
- Provided day-to-day technical support by troubleshooting ad hoc requests across internal applications

Stephen Lewis Foundation — Program Officer (Data & Analytics)

Oct 2024 – Dec 2025

- Built Power BI dashboards to automate reporting and analysis, reducing manual effort by **50%** and improving data accuracy
- Worked with non-technical teams to understand their business needs and deliver effective system solutions
- Managed **SQL** and **Excel**-based data sources, ensuring data consistency and accessibility across the organization
- Supported the onboarding and training of non-technical users by explaining system functionality and data workflows

Muia Consulting — Software Engineer Intern

Sep 2025 – Dec 2025

- Implemented backend validation and data-checking logic to improve data quality and reliability, achieving **98% processing accuracy** across supported tax documents
- Contributed to the development of a tax processing platform supporting automated document ingestion and data extraction
- Added structured logging and request tracing across backend services, improving visibility during production incidents and speeding up triage times

Aquazen Services — Full-Stack Developer Intern

May 2025 – Aug 2025

- Modernized a web application by updating **Next.js** front-end components and integrating **Redux**, improving maintainability and accelerating feature delivery
- Optimized **REST APIs** in **Node.js + PostgreSQL**, cutting response latency by **20%** and improving system efficiency
- Designed and validated relational database schemas with a focus on query performance and data integrity

Riipen — Web Developer Intern

Jan 2025 – Apr 2025

- Delivered a production-ready website following **Scrum**, contributing to sprint planning, stand-ups, and backlog refinement
- Integrated the **Google Business Profile API** to display real-time reviews, boosting user engagement and confidence

Equitable Bank — Cloud & DevOps Engineer Intern

May 2022 – Dec 2022

- Implemented **Jenkins** CI/CD pipelines with quality gates and release controls, reducing manual deployments by **30%** and improving deployment consistency across environments
- Supported application and platform operations by collaborating with developers and QA to analyze defects, perform impact assessments, and implement secure fixes aligned with SDLC and compliance standards
- Built **Kibana** operational dashboards, improving system visibility and reducing incident triage time by **25%**, enabling faster isolation of failure domains

Projects

Forge Fit | React, Node.js, Firebase

- Built a full-stack web application with React, and Node.js, supporting secure user authentication and real-time data access
- Integrated external APIs to deliver personalized plans, fitness-tailored health information, and data-driven features
- Implemented **progress tracking dashboards** with Chart.js, enabling performance analytics and historical data visualization

Education

Toronto Metropolitan University (Formerly Ryerson University)

Sep 2021 – Apr 2025

Bachelor of Science (BSc) - Honours in Computer Science

Toronto, ON

- **Coursework:** Algorithms, Data Structures, Databases, Object Oriented Programming, Data Mining, Artificial Intelligence, Software Engineering, Distributed Systems, Operating Systems

Skills

Languages: Python · Java · JavaScript · TypeScript · HTML/CSS · SQL · Bash

API & Backend: REST APIs · OpenAPI · OAuth 2.0 · FastAPI · Node.js · Spring Boot

Cloud/DevOps: AWS · Azure · Terraform · Docker · Jenkins · GitHub Actions · Kubernetes · CI/CD

Databases/Tools: PostgreSQL · MySQL · Git · Jira · Postman · Confluence · Kibana · Power BI
